Capability Statement

Core Competencies

JSTech Consulting provides data analytics and management support with a client first approach to help you meet your mission. JSTech specializes in:

- Business intelligence technologies
- Geospatial information systems
- Data reporting and visualization
- System Modernization
- IT consulting and quality improvement

Differentiators

Located in the District of Columbia, JSTech can be distinguished based on the following qualifications:

- SBA certified HUBZone Program Company
- DC Certified Business Enterprise
- 10+ years of Government contracting experience
- “Client first” mentality results in efficient turnarounds and quality deliverables that have made JSTech a trusted asset by the Government
- Efficiently staffed and intelligently structured to provide contract support at a lower price point thereby allowing the government to use residual funding elsewhere

Past Performance

United States Army Corps of Engineers (USACE): JSTech employees have provided the USACE Real Estate Directorate with mission essential IT and business support from 2013 through present day (2018 - present as JSTech). Support includes:

- **System Modernization:** Re-engineering the legacy Real Estate System into an IL4 certified, modernized, user friendly system that exceeds mission needs. Leverages ServiceNow, Esri ArcGIS, and scrum and agile methodologies.
- **Data Visualization and Reporting:** Providing federally mandated data, reports, and applications on both a recurring and ad-hoc basis. Applications include ESRI ArcGIS, SAP BOBJ, Qlik Sense, and Microsoft PowerBI.
